

The V-100 is a single screen, affordable, judgmental use of force firearms training simulator. The extensive library of realistic training scenarios is capable of supporting the entire use of force continuum from verbal skills, less than lethal options (TASER®, beanbag, pepperball, OC) to lethal force. The system fully supports marksanship and skill building from basic to advanced.

The V-300™ is the higher standard for decision-making simulation and tactical firearms training. Five screens and a 300-degree immersive training environment ensures that time in the simulator translates into real world survival skills. The system supports 15 lanes of individual firing lanes.

V-100™ SYSTEM FEATURES AND CAPABILITIES
